Regarding: Comments on the Proposed Healthy Ohio 1115 Medicaid Waiver

To The Honorable Secretary Sylvia Burwell:

I oppose the "Healthy Ohio" Medicaid Waiver because the proposed changes will make health care unaffordable, complicated, and challenging for me and the over one million other Ohioans on Medicaid. This proposal would hurt the recent progress Ohio has made in increasing access to quality health care.

My current Medicaid coverage allows me to receive much needed high quality primary health care at Neighborhood Family Practice, a community health center in Cleveland. I know I have a health care provider that I can see on a regular basis and who can help me maintain my health. Under "Healthy Ohio" if I can't afford to pay my premium, I will lose my health coverage which means I won't be able to receive the health care I need.

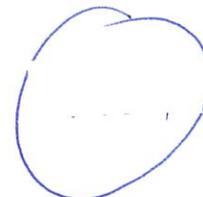

I know that I am not the only one in this situation and I urge the Center for Medicare and Medicaid Services to reject Ohio's "Healthy Ohio" Waiver request.

Respectfully,

Remuante Singh

Medicaid helps me...

Being insured helps me...

I depend on Medicaid...

Medicaid is a good Program that helps others that can not pay and only have a limited income. For me, I only get SSI, and Child support, that is once a month and child support is when I get it. Being Insured is helpful for me if I get sick or my son gets sick - I can't pay the \$\$ that is needed everytime I come and see my HMO.

To me if that is the point, Everyone needs to get an job and pay the co-pay for each person per household. I would only see my HMO once a month for my son & I. that would be 200 or more - I have CareSource and he has CareSource & Private. would that be more \$ out my pocket for all Insurance that is used? I don't think I would be able to pay a bill at home - If the \$ that is used in that month, would it cover the whole month? People would not have no money for Bus (like me) Every one would go to the ER, would the ER doctors charge the \$ to see them also? I depend on Medicaid cause it is free, I can come when I want to, and my son has alot of medical, so I would love it to stay on no cost no \$ HMO!

Sincerely,

Kristina E. Betts
